This action was filed in the Middle District of Pennsylvania and is captioned *Delaware County Employees Retirement System v. Cabot Oil & Gas Corporation*, No. 20-cv-1815. This notice is made pursuant to the Court’s November 12, 2020 Memorandum requiring publication of a new notice. ECF No. 16.

The *Cabot Oil* class action lawsuit charges Cabot Oil and certain of its officers with violations of the Securities Exchange Act of 1934. Cabot Oil is an independent oil and gas

company that explores for, exploits, develops, produces, and markets oil and gas properties in the United States, with a primary focus on the Marcellus Shale in Susquehanna County, Pennsylvania.

The complaint alleges that throughout the Class Period, defendants made false and misleading statements and/or failed to disclose that: (i) Cabot Oil had inadequate environmental controls and procedures and/or failed to properly mitigate known issues related to those controls and procedures; (ii) Cabot Oil failed to fix faulty gas wells that were polluting Pennsylvania's water supplies through stray gas migration; and (iii) Cabot Oil continually downplayed its potential civil and/or criminal liabilities with respect to environmental matters. These issues were foreseeably likely to subject Cabot Oil to increased governmental scrutiny and enforcement, as well as increased reputational and financial harm, and would also materially impact Cabot Oil's financial results. Defendants' false statements and omissions caused Cabot Oil stock to trade at artificially inflated prices throughout the Class Period.

On July 26, 2019, Cabot Oil filed its quarterly report on Form 10-Q with the SEC for the quarter ended June 30, 2019. The Form 10-Q disclosed that the Company had received two proposed Consent Order and Agreements related to two Notices of Violation it had received from the Pennsylvania Department of Environmental Protection two years earlier (in June and November 2017) for failure to prevent the migration of gas into fresh groundwater sources in the area surrounding Susquehanna County, Pennsylvania. As a result of this news, the price of Cabot Oil stock declined 12%.

Then, on June 15, 2020, following a grand jury investigation, the Pennsylvania Attorney General's office charged Cabot Oil with 15 criminal counts due to its failure to fix the faulty gas wells that had polluted Pennsylvania's water supplies through stray gas migration. In

announcing the charges, Pennsylvania's Attorney General, Josh Shapiro, emphasized that defendants "'put their bottom line ahead of the health and safety of our neighbors'" and that "'Cabot knows what they've done.'" On this news, the price of Cabot Oil stock declined more than 3%.
